To Whom It May Concern

By means of this letter I would like to recommend the services of Intami-Marek Gruszecki. Our company has been working with Intami-Marek Gruszecki for over a year on a comprehensive turnkey banking project.

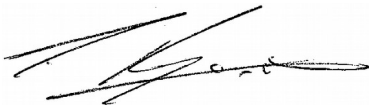

Without hesitation I can heavily commend the company for the very thorough attention to detail and quality it offers. This being a financial-based enterprise, strong security know-how and a deep knowledge of the programming stack ecosystem is something we value highly and in this respect we can confidently state that we have always been very satisfied by solutions delivered by Intami-Marek Gruszecki.

Intami - Marek Gruszecki has historically been always assigned the more difficult aspects of our architecture and delivery in light of excellent skills of people employed by Intami. In our opinion the knowledge and creativity of the company resulted in very impressive results that go considerably beyond what is normally attainable in the given timeframe.

The company's services are therefore easily strongly recommended and I am looking forward to working with it again for any future project.

For further clarification, please do not hesitate to reach me at the aforementioned contact details, meanwhile I remain,

Yours sincerely,
